BUG REPORT for TEST CASE 1

Description:

When the 'See All Bots' button is clicked no bots or values are displayed on the webpage. When clicking the duel button it does not record the correct amount of wins or losses. When clicking 'Play Again' it still does not record the correct amount of wins or losses.

Steps To Reproduce:

1. Go to http://localhost:8000/
2. Click the 'See All Bots' button
3. Click the 'draw' button and then click 'add to duo' on two of the bots
4. Click 'Duel'
5. Click 'See All Bots' again
6. Click 'Play Again'

Expected Results:

1. When 'See All Bots' button is clicked all of the bots and their values will show up
2. When clicking duel it correctly records wins and losses
3. When clicking 'See All Bots' on the duel page it shows all bots and their values
4. When clicking 'Play Again' it refreshes to see correct amount of wins and losses recorded

Actual Results:

1. When clicking the 'See All Bots' button, nothing shows up.
2. When clicking duel it only records the losses
3. When clicking 'See All Bots' button again on the 'duel' page nothing shows up
4. When clicking 'Play Again' it refreshes and only shows losses.

Environment:

- Chrome
- Microsoft Windows 11 Home
